

Vaccinium macrocarpon

Large Cranberry

Requires acidic, swampy conditions. An attractive groundcover, for the right place. Very low and spreading. Glossy, dark green foliage turns reddish purple during the winter. Fruit is both ornamental and edible.

Suggested companions: leatherleaf (*Chamaedaphne calyculata*), highbush blueberry (*Vaccinium corymbosum*), pitcher plant (*Sarracenia purpurea*), tamarack (*Larix laricina*), black spruce (*Picea mariana*)

Plant Type: Shrub

Size: 2"-6" H
 W

Water Tolerant: Somewhat

Habitat:
Swamp/ Bog

Soil: Very Damp/Wet
Rich Moist

Exposure: sun
 filtered

Flower Color:
White
Pink

Plant in:

Groundcover: Yes

Bloom Time:
June
July

Other Attributes:
Fall color
Winter interest
Edible fruit
Wildlife attracting
Butterfly attracting
